

Catherine Hickland Introduction

I have the wonderful honor of introducing our keynote speaker for the evening. She's a star of stage and screen, the first lady of influence, and the mother of reinvention.

You might know Catherine Hickland, or "Cat" as her friends call her, from her 39 years of television work. Her many credits include a leading role on *One Life Live* and a star turn as the ill-fated love of Michael Knight on NBC's *Knight Rider*. She has also performed as Fantine in *Les Miserable* on Broadway.

While still acting full-time on *One Life to Live*, Cat fulfilled her dreams of becoming a certified hypnotist and an author, penning *The 30-Day Heartbreak Cure* for Simon and Schuster.

Aside from being a popular touring hypnotist and mentalist, Cat is the Founder and CEO of Cat Cosmetics, a successful cosmetic and skin care line for women over forty, and husband to Hollywood director Todd Fisher.

Let's give a warm welcome to Catherine Hickland!
